Dear Nannette,

We want to thank you again for being such an excellent art tutor for our son, Conor. Your instruction was invaluable in helping him prepare for his application to Carver's Visual Arts Magnet High School program. You have a wonderful style in working with children and were able to coach him in a way perfectly suited for him. As you worked with Conor, it was easy to see that you care deeply about your students and invest yourself personally in their success, enabling them to realize the full potential of their skills and artistic understanding.

As a result of your individualized instruction, you helped to greatly improve our son's drawing skills, increase his understanding of composition, his comfort with using a full range of values in his sketching, and his ability to work across a broad range of media. Through his work with you, he was able to expand his portfolio, prepare for his audition still-life, and develop his artistic communication for his interview. Conor received his acceptance letter into Carver last week, and we know that your guidance has been critical in not only helping him to achieve this goal, but will also enable him to perform well once he begins classes at Carver next fall.

Sincerely,

Peter & Beth Twohy
